Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 10, 11 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Marshall (US 3,891,290).

Marshall discloses a fluid coupling including a fluid quick connector and an endform comprising: an electrically conductive connector housing (10,6,36) having a bore extending from one end; an endform (4) having a bore extending from an open end; and an electrically conductive contact member (W) mounted in the housing and contacting the endform when the endform is inserted in to the housing to electrically connect the male endform and the quick connector housing, the contact member including: a first portion (40) mounted in the bore of the connector housing in direct contact with the housing; and an arm (46) extending from the first portion and passing through the open end of the bore in the endform into direct contact with an inner surface of the bore of the endform (col.3 lines 39-43).

Regarding claim 4, Marshall discloses the means being an arm having a bent end (shown in Fig.3) extending into the endform.

Response to Arguments

Applicant's arguments filed June 17, 2005 have been fully considered but they are not persuasive.

In response to Applicant's arguments that Marshall "does not have a first portion mounted in the bore of the connector housing in direct contact with the housing", please note that the housing is defined at least by elements 10, 6 and 36. Thus, the first portion (40) of the contact is in the bore and in direct contact with (part 6 of) the housing.

Allowable Subject Matter

Claims 5-9, 12, 31, 32, 34, 35 and 38 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
